Making a difference in Southwest Louisiana

At Sempra Infrastructure, our mission to be North America's leading energy infrastructure company comes to life through our values – do the right thing, champion people and shape the future. These values are exemplified through the strategic initiatives and programs we invest in, reflecting our commitment to positive action and impact within the communities where we operate. In 2024, we collaborated with local

community groups to fund programs focusing on economic prosperity and leadership development, environmental stewardship, emergency preparedness and safety and education initiatives supporting science, technology, engineering and math (STEM). Through these collaborations, we have been able to touch the lives of thousands of residents in Beauregard, Calcasieu and Cameron parishes.

\$360,000
in social investment

1,840
families fed during the holidays through community funded food programs

1,800
pounds of food donated through Sempra Infrastructure's employee canned goods drive

We provide funding to local schools, technical colleges and universities to promote learning and continued development as part of our efforts to champion people and grow a diverse, inclusive and high-performance workforce. Our funding supports STEM education, ensuring students have access to high-quality learning opportunities.

Through our Season of Giving and Hunger Action Month initiatives, we support programs that focus on food access, advocacy and meeting the needs of vulnerable families. These combined efforts have enabled us to reach tens of thousands of people by providing meals to homebound residents, holiday food baskets, food pantry, clothing and blanket distributions, toy drives and bill assistance.

Sempra Infrastructure organized two environmental clean-up efforts in Cameron Parish, including the second annual Trash Bash during Earth Month, where volunteers collected 100 bags of debris and litter from a 3-mile stretch along Main Street in Hackberry, Louisiana. Joined by Cameron LNG employees and residents, these efforts demonstrate our commitment to preserving the environment and making our community a better place to live.

Sempra Infrastructure supports services that focus on making communities safe and resilient. Through the Safe Communities initiative, we awarded funds to emergency response agencies to purchase a thermal imaging camera drone, two AEDs, a life-saving battery-powered extrication tool and a first responder radio.

The Hackberry Holiday Festival, sponsored by Sempra Infrastructure, has grown into a cherished local tradition. The first holiday event was hosted in 2004, just before construction of Cameron LNG commenced. This year, nearly 400 community members cheered on the arrival of Santa Claus on a fire truck, took part in face-painting, ornament decorating and the ceremonial lighting of the tree. In addition, approximately \$1,000 was raised for the Hackberry Angel Tree project to benefit local families.

249
bags of trash collected during community clean-up events

community volunteer hours

“Sempra Infrastructure’s contributions to Care Help of Sulphur creates a meaningful impact in addressing food insecurity concerns in our community. Their support allows us to distribute nourishing meals to those in need.”

– Jody Farnum, Care Help of Sulphur

Proud to be part of the Southwest Louisiana Community

We are thankful to all the community organizations, schools, food pantries and emergency response agencies for agreeing to collaborate with us. Together we've made meaningful change in the lives of residents in Beauregard, Calcasieu and Cameron parishes.
